Simon C. Edlmann, SF 3/c, writing on a Sunday night from the Philippines—

"Eighty-three, and just getting around to writing tonight after spending an hour on supper chow and the same amount of time standing in the beer, cigarette and soap line at the store. Cigarettes are rationed to five packs a week and beer two bottles; soap one bar.

"We worked this afternoon on our camp site because of the no-work rule during the weekdays on it. A little tired, but still able to go.

"Maybe you would like to go out to supper with me, or Sunday dinner at 5.30. After showering and washing the dust from our carcasses, we will grab our mess gear and head for the chow hall at the other side of camp. A long line is standing there, and we fall in.

"After moving inch-by-inch for 20 minutes, we reach the serving line. Roast chicken, dressing and gravy, corn, potatoes, hot rolls and butter, ice cream and coffee are thrown in to the mess kit. The dressing covers the chicken, the chicken hides the potatoes, and the gravy one section of the kit. The corn placed in the double section covers all of it, with the rolls and butter balancing on top of all and the ice cream alongside.

"When the corn was hot it melted the ice cream, and when time to eat the corn, it was cold from the ice cream. But all in all, a good supper to us, and we were well pleased. After eating, we stand in line another 20 minutes to wash the mess kit and shoot the fat.

"So much for the dinner, and I knew you would enjoy it (Ed. Note—With the meat and fowl sitch, as it is—are you kiddin'?), so I (Ed. Note—With the meat and fowl sitch, as it is—are you kiddin'?), so I will attempt to take you to the Filipino dance I attended last night with a couple of friends, York Butler and Larry Walters, at one of the nearby villages.

"We will board a camp bus, cargo truck, for the first part of the journey. Next we hitch-hike a ride in an army truck for a fast ride over mountainous road with thrilling curves. The army driver is tops, covering the road many times before. Another ride is needed, so we stop a Filipino Jeep with an old Jap truck with plenty of room in the cab and seats in the truck bed for passengers, plus many hand holds for those standing up. The bus was more crowded with people than we crowd livestock going to market in Chicago. In the bus was an old man, sick, on a cot, with the cot lashed to the bed of the truck and bows of the top. We bounce, rattle and hang on for dear life for the remaining distance.

"I want you to meet the friends we visited—man and wife, son 17, daughters 14 and 6. They are very hospitable, speak good English, and were storekeepers before the war. They live in one of the larger huts of the

Lake County Firemen Will Convene Here

Local Fire Department to be Host at Final Meeting of Year, Monday

Members of the village board and officials of the First fire district, as well as about 150 representatives of fire departments throughout Lake county are being invited to attend the meeting to be held by the Lake County Firemen's association here Monday evening.

Chief L. R. Van Patten of the Antioch department, Cleve Vos, Merrill Cunningham and Clarence Shultz are members of the general committee. The meeting, which closes the year for the association, will include a business session, a talk and refreshments. Fire district officials include Ernest L. Simons, Clarence Crowley and D. H. Minto.

village and have the good fortune to a few tables and benches, and a Coleman lantern for light. Drinks and visiting are enjoyed in a grass-covered 14 by 30 foot shelter attached to their sleeping quarters.

"All of us, Butler, Larry, the family and I, started for the home where the dance is to be held. Taking the Coleman lantern from the ceiling, we walk a quarter mile down the road.

"We enter a hut built high on poles by climbing a rickety set of bamboo steps and pass into a room 10 by 14 feet, already crowded with people. The room, one of two in the home, is floored with split bamboo, which hardly looks sturdy enough to hold the weight of the 40 persons who soon gather from the streets and neighborhood to enjoy the dance. A few benches and the window sill afford the only seats. A cupboard and a picture of Mrs. MacArthur and child are the only decorations.

"Music from a guitar a Filipino brought along started and the room filled with approximately 15 more people from the street. A Filipino girl sang a native song and another took her turn singing 'I Love You Truly,' and I would say, very good, if you had never heard Dinha Shore or Kate Smith sound off on these numbers. One of the men who played the guitar sang 'Home on the Range' and 'Roll Out the Barrel,' and can say that the latter would have been a great idea. In the first song he substituted 'carabao' for 'buffalo.'

"Another party at the dance was a three-month-old baby sleeping in a wicker basket suspended from the ceiling.

"This will interest the women. All (Continued on page 5)

"That Barbershop Harmony Again"—The Saturday night "practice sing" of "I Want a Girl," etc., as accomplished by Ed and Ed and Co., et al, is reliably reported by our spies to have been a reasonably successful effort—or at least, a step in the right direction. By the physical endeavor involved, 'tis said, one could tell that it came right from the heart, making up in volume and close harmony for what the more finished musicians might term tonal quality and technique. No doubt, Ye Olde Quartette will be enjoyed mightily at the Lumbermen's Frolic today.

No, It Isn't Over Yet!

The fact that the war is far from over yet was brought home to Antioch people with shocking forcefulness with the receipt of word during the past few days that another young man from this community had given his life for his country.

News that hostilities in Europe had ceased brought an understandable lift to the spirits of all in this country, who felt that a milestone, at least, on the hard journey toward world peace had been reached.

There are few people in this country (we believe) so childish as to think that the rehabilitation of Europe, the conquering of Japan or the solving of our own many post-war difficulties will be easy. But most Americans are of an optimistic temperament. We are inclined to hope for the best, even as we go about the task of preparing for the worst.

Shocked as we have been by the callousness shown both toward their own and other peoples by those leaders who have been most influential in plunging the world into this most horrible of all wars, we have hoped and determined that some good might be made to come out of all the suffering, grief, worry, deprivation, destruction, labor and general inconvenience as well as downright tragedy that has been wrought throughout the world.

As the war and its attendant havoc continue, we in this country, and, so far as we can observe, the people in many other countries as well, become more firmly determined that the greed, the downright malice, the utter lack of scruple that have been among its underlying causes and that have helped to make it more awful shall not prevail.

While we may complain about inconveniences, while our hearts are deeply touched by tragedies, and while we have never truly expected that victory could be won save at terrible cost, we are not inclined, either as a nation or as individuals, to leave a task only partly done.

While we in this country can give thanks for the services of many splendid and trustworthy leaders, we are inclined to feel that the responsibility does not end

with them, nor with the men in the front lines, the supply lines, in the planes or on ships, but that it extends back to the humblest individual among us. With all our bickering and with all our differences, we are grateful for what we have had in the past years of our nation, and we have faith in the future.

A certain German general was reported in news dispatches after the Nazi surrender to have said regarding a certain American division (the Fourth, we believe it was), that if he could command such a group of men he would have realized his life's ambition.

Now, praise from a foe is praise indeed, but we've been thinking back a little further to the things that made this division—and others of our groups in the armed services—what they are.

There isn't an awful lot of flashiness or colorfulness about any of the American armed services, so far as we can see. They are made up pretty much with an eye to service, efficiency and endurance. That's probably what the Nazi general was approving in this particular group. There isn't an awful lot of glamor for American people in war. We know that the price for it comes out of Mr. and Mrs. John Q. Public and their kids.

So it's Mr. and Mrs. J. Q. P. & family who have to turn to and get the job done. What that German general was seeing wasn't that division or its equipment or its leaders; he wasn't seeing the money, the training or the work that made that made all of those things possible; he was seeing the products of a free nation, of the families who brought up those boys, of the schools they attended, of the fellow citizens who worked to arm them, of traditions and ideals that go back to the very start of this country and of leaders who were likewise trained in those traditions and ideals; he was also seeing men who, with all their very human faults and failings, have pretty much carried over into their military life the habit of trying to do the best work they can with the material at hand. The things that those men have done, the tasks that they have accomplished, stagger the imagination.

Some of those men will be able to come home. Others will have to go to the Asiatic theater of warfare to augment and relieve those who have been carrying on the struggle there.

There is still a heavy burden for all—but it is not unreasonable to believe that we will have the courage, the stamina and the ability to carry on the struggle to a triumphant conclusion.

MORE and BETTER telephone service for farm families

Despite wartime difficulties, nearly 15,000 additional farm and rural telephones have been installed in the territory served by the Illinois Bell Telephone Company since 1940. This increase reflects the intensive efforts of the telephone industry to serve those homes.

Right now war needs come first. But as soon as conditions permit, new materials and construction methods will be put to full use. There's a steel wire, for instance, that requires fewer poles. Also a new kind of insulated wire that can be plowed directly into the ground.

These are two of many telephone developments that will extend and improve the rural telephone and help provide service for every farmer who wants it.

News of the Boys...

"Just dropping in with a line or two to thank you for the paper," S/Sgt. Lorraine O. Pape commences. "I am not the only one who reads it. There are girls in the company from Chicago who have been to Antioch

and they also enjoy looking through the paper.

"I appreciated the back copies you sent when I was supposed to have been transferred. I wish it had been true, but someone mixed up something somewhere.

"Last Monday was my second anniversary in Alamogordo and now I am launched toward the third. I am in hopes that it never arrives. Some of us took note of this occasion by doing a little celebrating at the Non-Commissioned Officers' club.

"We are still having our wind and sand storms and a week ago Monday they blew at a gale of 60 miles per hour. Because of the sand, you couldn't see across the street.

"The heat is moving in upon us for the summer and every day it is somewhere between 90 and 95. With these few weather reports, I believe it is time for me to close, as I know a lot of the boys have more than this to put up with.

"P. S. One of the fellows from Chicago designed the letterhead."

(Editor's Note — The letterhead shows a facsimile of a Chicago newspaper's front page with a banner headline featuring the B-29 raids, and with insets and flanking designs of a B-29 and aviation repair scenes in the tropics.)

News of the Boys...

(continued from page 1)

girls sit on one side of the room, lined up like birds on a wire, or as they did in grandma's time. Men go and pick out the lady they wish to dance with and deliver her back to her place after the shuffle. All stay seated while not dancing. They wear wooden clogs, as I believe they are called in the States, with nothing holding them except the straps across the toe. They wear these at all times. All are dressed in their best and the one singing wears a green skirt with white blouse, and white ribbon with a small spray of the national flower in her jet black hair. Most have long black wavy hair, and the gigoles have no choice of blondes, brunettes or red heads.

"Men are dressed in any GI clothes they can trade us and some wear shoes, some are barefooted nevertheless they enjoy dancing.

"All furniture, two tables and three benches, is moved from the floor of sand for dancing. Later in the evening the fish nets, baskets and coils of rope are moved and the sleeping mat of bamboo is stood up against the wall to allow more space.

"They dance very slowly. A person marvels at the girls dancing in those wooden clogs with nothing holding them on but the strap. Larry tried his luck at dancing but his speed was so fast that the girl could neither keep up or keep her shoes on. He is a polka lover when dancing, and I was quite amused.

"Later in the evening the Chief of Police of the village paid us a visit and remained for a drink, plus going to find the fiddler to play and bring in some cousins who enjoy dancing. "An old lady sat back in a corner enjoying the music and keeping time with her bare feet, while smoking a cigarette. Only the older women smoke.

"At 1 o'clock we leave, hitching a fast ride on a huge army gasoline tank trailer, sitting on top to enjoy it. Many times the cab is around the curve, with us trailing along just like crack-the-whip. A great ride in the moonlight. The second ride is in a weapon carrier loaded with army men and Filipinos, and the last hitch is accomplished in one of our dump trucks to camp."

M/SGT. A. G. ANDERSON,
HOME FROM ITALY, HAS
HON. DIS. 118 POINTS

With M/Sgt. A. G. Anderson and S/Sgt. Charles A. Anderson both home from the wars now, the Antioch News has one less military problem to contend with. Through some strange alphabetical affinity that led to slight mishaps in making up type galley on the New York APO lists, Sgt. Anderson was always getting Sgt. Anderson's paper, and vice versa. While neither of the parties concerned seemed to mind very much, both copies being identical, it is little things like this that hurt the pride of the News and also of John L. Horan, senior vice-commander of the

Tenth District Legion, and general man-of-all-work for the local post, who has been putting in quite a few hours weekly keeping the mailing list up-to-the-minute. Hence, it was with relief, as well as with pleasure, that both Andersons (not related) were welcomed back to the lakes region.

M/Sgt. A. G. Anderson arrived in New York June 7, after 25 months overseas with the 15th Army Air force, in Africa and Italy. During this period he received the Air medal, and the Bronze Star award, and also holds the Good Conduct medal and a Presidential Citation with Oak Leaf cluster "for superior bombing."

He has now received his honorable discharge, with a total of 118 points. Before being transferred to the European Theater of Operations, he was stationed consecutively in 11 different camps in this country.

They include Camp Grant, where he was inducted Feb. 13, 1942; Shepard field, Wichita Falls, Tex.; a camp "out in the cactus," near Tucson, Ariz.; Yakima, Wash., where he took an aircraft electrician's course at a technical school; Boise, Ida.; Minneapolis, Minn., for a technician's course on the "automatic pilot"; Walla Walla, Wash.; Sioux City, Ia.; Watertown, S. Dak.; Oklahoma City, and Camp Kilmer, N. Y., which he left for overseas service April 29, 1943.

Before entering the service, he worked first at Wedeen's resort when it was located on Grass lake (the property was later taken over by the Shunneseons, and is now operated by Joe and Lil Farrin), and afterward built up his own business as general handyman and repairman in the lakes area.

S/Sgt. Charles A. Anderson received his discharge several months ago. He was based in England during his overseas service as radio operator in the Army Air corps.

HONOR ROLL RECENTLY DEDICATED AT TREVOR

A new Honor Roll and flag staff were dedicated at Trevor at services held in conjunction with a Memorial Day program sponsored by the Trevor Community club. The ceremony also paid tribute to men and women now in the service from the Seventh School district.

The Union Free High school band of Wilmet and Fred Semrau Post No. 361 of the American Legion assisted in the services. Mrs. Selear, four of whose five sons are now in various branches of the armed service, acted as flag bearer.

Maj. Van Dikman of the Wisconsin state militia, whose home is in Kenosha, was the speaker. Following the address by Maj. Dittman, who is a World War I veteran and a past officer of the Wisconsin department of the American Legion, Arthur Hartnell, chairman of the Salem township, gave a brief talk appropriate to the occasion.

The welcoming address on behalf of the Trevor club was given by Walter F. Hagemann, president.

Personals

A regular meeting of the Lake Region Home Bureau Unit, was held at the home of Mrs. Fred Oschmann, Wednesday. The lesson on "Home Made Yeast Rolls" was very ably given by Mrs. Robert Runyard and Mrs. Homer La Plant. Mrs. Hans von Holwede and daughter Hilda, Mrs. Richard Whittaker and Mrs. Grace Anderson were guests. Following the program a luncheon was served by the hostess.

Worthy Matrons' and Patrons' Night was observed by the Antioch Eastern Star chapter Saturday evening in the Masonic temple, with Mrs. Maud Herrick and Harry Herrick, worthy matron and worthy patron of Millburn chapter, presiding in the East.

The Ladies' guild of St. Ignatius' Episcopal church will hold a card party Wednesday evening, June 27, in the Guild hall, at 8 o'clock.

"I have more time
to sell War Bonds

THANKS TO MY

AUTOMATIC RANGE"

"I'm going to help our town be out on top in War Bond Sales this year. Yes, I can devote more time to selling bonds—I have my automatic range to thank for that!

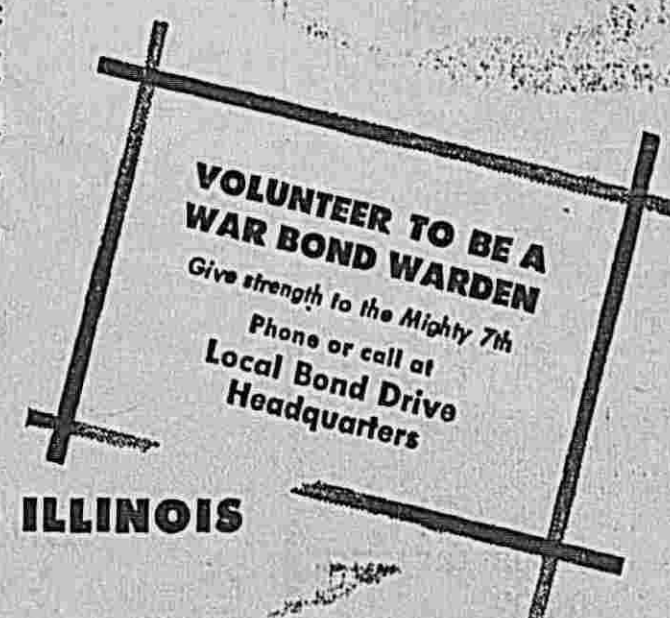

"I just plan my meals ahead of time, slip the food into the oven before I leave, set the easy-working automatic timer... and away I go! It's really wonderful to know that when I come home a delicious dinner will be all ready to serve.

"Another thing—my automatic

range is so clean cooking! It doesn't blacken my pots and pans. Why, I can wash them in a jiffy, as easily as cups and saucers. Accurate heat control keeps food from sticking or boiling over—and saves me many hours of scouring time.

"Yes, there are dozens of reasons why I like my automatic range. One of the best is that I have time to be a War Bond Warden, and still be sure my meals will cook perfectly while I'm away.

"Until we got an automatic range I didn't know how easy it was to be a really good cook. Why, our range cooks fast—it's easy to use, and I find the automatic features do a big part of my cooking job for me. So if you have an automatic range, be sure you take advantage of all the help it can give you."

News of the Boys

LT. GEORGE CERMAK IS CITED OVER WLS

Radio Station WLS recently cited the following news dispatch, received from a Ninth Air force bomber base

in Belgium—

"When B-26 Marauders of the U. S. Ninth Air force bombed inside of Czechoslovakia for the first time, a Cicero pilot, First Lieutenant George Cermak, 1322 South Fiftieth avenue, was leading a formation of the medium bombers.

"Flying with the 'Silver Streaks' of the 344th bombardment group, Cermak completed his 26th mission on the successful attack of a railway bridge in the Sudetenland city of Eger.

"Following up the swift moves of the ground forces, Cermak's group has operated from bases in England and France, and now takes off from a base in Belgium to spearhead the deep penetrations of the allied armies in Germany.

"The group has provided tactical bombardment against five countries to date.

"Lt. Cermak wears the Air medal and four Oak Leaf clusters for meritorious service in aerial flights. His wife, Mrs. Genevieve R. Cermak, lives in Chicago."

Lt. and Mrs. Cermak have a 17-months-old son, Randy.

He is the son of Mr. and Mrs. Joseph Cermak of Lake Village, Ill.

Mrs. Cermak's parents, Mr. and Mrs. Peter Zalatoris of Lake Marie, celebrated their thirty-first wedding anni-

versary May 31 with a dinner for relatives and friends.

These men can tell you why the 7TH WAR LOAN is the BIGGEST yet!

YOU ARE being asked to lend more money than ever before—in the 7th War Loan.

These men can tell you why.

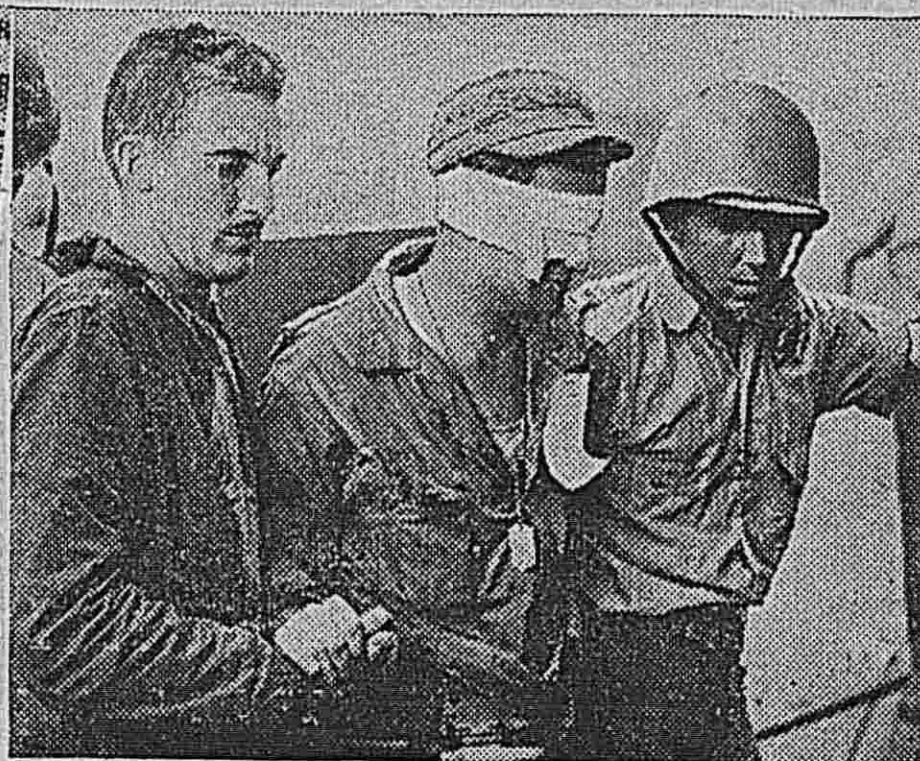

They can tell you of giant ships ready to slide down the ways this year.

They can tell you of a whole new air

force in the building—huge new bombers and fast new jet-propelled planes coming off the lines by thousands.

They could show you why it is cheaper and quicker to give our Pacific Forces entirely new equipment sometimes—instead of shipping tanks and guns from Europe.

They can, in short, show you 101 ways in which your dollars are needed more than ever to bring America's might to its full strength—so that we may crush our foe the faster, make an end of killing, and bring our men back home.

Will you tell these men "I can't afford to buy my share"?

THE GENERALS and admirals can show us why our money is needed—more money than before.

But other men can show us something, too.

They're the men with twisted, crippled limbs...with clever iron hooks instead of hands. The blind men...the men with

scarred, seamed faces. And perhaps worst of all, the men with blasted, darkened minds.

They can show us, clearly, how small is any sacrifice we make in lending money.

If you have an income, whether from work, land, or capital, you have a quota in the 7th War Loan. Find out what that quota is—and make it!
